

INVERSPOTTER 14000 SMART

🇬🇧 Forget about type of material, manual settings and reference tables! The Made-in-Telwin technology, "Smart Autoset" allows the **automatic detection of both material and thickness**, all you need to do is weld!

🇮🇹 Dimentica il tipo di materiale, le regolazioni manuali, le tabelle di riferimento. La tecnologia "Smart Autoset" Made in Telwin rileva automaticamente il tipo e lo spessore dei materiali da saldare.
